

Parent Reviews

1) My 4 year old goes here and she loves it! It's a wonderful place to have your child, especially in a Christian environment. The staff is awesome, the teachers goes above and beyond for the students. It's been a blessing having my daughter in the program. She's grown so much! I would highly recommend any parent with toddlers/preschool aged children to enroll! - Ms. Barnett, C.

2) My child has been in this program for less than a year and we have all seen the growth in him. He is currently in a two's classroom, and he can identify his shapes, colors, and he can count in English and Spanish. His social skills have developed tremendously as well. His teachers have been very caring, attentive, and patient with him, as this was his first time in child care. They've made learning very fun which has been the reason why he has developed his skills very well. He now enjoys school and talks about his teachers and friends very much, but if there is something that really makes this a great school is their teaching about God and the great activities the children get to be a part of. - Ms. Garcia, L.

3) My daughter has been attending at the school for a year now and she absolutely loves it! She will be turning 4 and can officially write her full name. At first it was rough for her being that she hadn't attended school before, but now I can barely get her out when we're leaving. All the teachers are great, very caring and understanding. The program itself is very great. I am very blessed to have my daughter enrolled at Colleyville Christian School. I can't wait for Pre-K this fall, I know she will learn and read a lot more. - Ms. Lopez J.

4) My 5 yr old went to this school for 2 1/2 yrs and all the teachers were just wonderful. When she started kindergarten this year, she was so beyond her skill set for that age that they had her tested. I attribute this to the curriculum taught at Colleyville Christian pre-school. Also my 2 yr old boy now goes to school here and is just so so happy...the teachers and administration are so kind and loving. They send him home with a daily report card of what he learned and how his nap was, how many times he went potty, etc. Very detailed, very clean school. Highly recommend. - Lindsay N. on 2014-02-25

5) Colleyville Christian Preschool has been wonderful for my son. He started at 2 and will now be in Pre K this upcoming year. They have helped prepare him for Kindergarten along with teaching him social skills to work with others. This school truly has the main focus on the kids and the staff goes above and beyond to make the students feel welcomed and excited to come back. Our youngest son will be joining his brother this fall as well and we know he will be taken care of so well. We are blessed to have found such a great preschool for our family.- McFarland, A.

6) My niece and nephew attended school from age 2 and loved each and every teacher so much they still talk about how much fun it was. They both read well above age "appropriate" level, and they both have a great concept in math as well. - Edge K.

7) "We don't want to leave!" From the mouth of babes, what better praise for Colleyville Christian School than those words. Gammill, P.

8) Colleyville Christian Preschool has been wonderful for my son. He started at 2 and will now be in Pre K this upcoming year. They have helped prepare him for Kindergarten along with teaching him social skills to work with others. This school truly has the main focus on the kids and the staff goes above and beyond to make the students feel welcomed and excited to come back. Our youngest son will be joining his brother this fall as well and we know he will be taken care of so well. We are blessed to have found such a great preschool for our family. - Angela 7/27/2014

9) Like others on this site we had a rough start, but now that both of my boys (ages 3 & 4) have been attending for almost a year, they love it. They look forward to going to see their friends and they love their teachers. I feel my oldest is getting prepared for kindergarten by the improvement in his reading a writing. - ABCD on 2014-03-05

10) As a teacher myself, I was very selective of a preschool program for my son. I wanted a program that was very student-centered and offered individualized instruction at my child's level. I couldn't be happier with Colleyville Christian Preschool. My son is thrilled to go to "school" every week and adores his teacher. Looking forward to many years ahead at Colleyville Christian Preschool! - Delighted on 2011-07-05

11) My daughter has attended Colleyville Christian for the last 2 years and it has been such a blessing to our family. Our daughter (who used to have separation anxiety) now begs to attend school everyday. She has learned so much, the crafts she brings home are incredible, and I love hearing her sing about Jesus from her Chapel class! The teachers and directors bend over backwards to meet the specific needs of each child. On numerous occasions, I have presented requests to the director and she has immediately implemented my ideas into the classroom. They have a great Parent Teacher Organization which allows me to get involved with classroom parties and fundraisers. They do special things for the kids such as bring in a petting zoo, pony rides, snow cone stands, pumpkin patch, etc. This school has truly blessed our family and will bless yours too! - by Thankful Mom on 2011-07-02

12) My three year old son is currently enrolled at Colleyville Christian Preschool. This is his second year attending. He is currently attending their summer science camp. I am very impressed on how my son has grown physically, mentally and spiritually all with the help of his caring teachers for whom he loves. We have saved more than 300 pieces of arts and crafts not including 2 scrapbooks with art and pictures of all the great activities that they had throughout the school year such as the petting zoo, music and nature. We have lots of videos on our phone of him singing and spelling all his shapes and colors. This past week he brought home some really cool musical instruments that he made in school. It was a joy watching him marching around the dining room table playing his tamborines and cymbals. I would recommend this school to anyone who wishes to see their child grow academically, spiritually and socially. - by Proud Dad on 2011-06-28
